

# FATHER + SON

TALK ABOUT SEX

Looking for a way to talk to your son about sex? Freedom Begins Here presents a new format of discussion.

The Father + Son interactive DVD and Guidebook is a way for fathers to talk openly with their sons about sex. Sadly, 12-17 year olds are the largest consumers of Internet pornography. Don't let your child fall into that trap. Start the conversation now.

*"I watched this video with my 11 year old son and it was great! The video answered a lot of my son's questions and after we finished watching the DVD he gave me a hug! I was rather moved by his appreciation for helping him to not only understand sex, but hear about sex from God's perspective. My son also heard about the dangers of porn. Great job guys! I will pass this around to the men at my church."*

-Pastor Harry Lundy

### Renovated:

Renovation is part of Jeff's DNA. He's been in construction since he could swing a hammer. To him there is nothing more satisfying than transforming a old house into something new and beautiful.

### Pornography:

An honest, albeit quirky look into the damaging effects of pornography and tips on staying away from it. Even though this video is humorous, porn is a serious problem in our culture today. So often it becomes the cause of divorce, conflict, abuse and just the absence of love.

### Sex - Ed 101:

Beware! This video contains information about... sex! This video is a great way to break the ice on what can be a very awkward conversation.
